

SHAPING A NEW LIFE

Baby boy Tejas is a second son of her parents comes from Guduru village Bagalkot district. Tejas was suffering from global delay in development that means living with severe disability in multiple domain and hopes are very less to sustainability/improvisation. But 6 years of intensive physiotherapy support at their door step, child improved tremendously today and child started walking, speaking and playing with other children as transforming towards social behavior improvisation. This is how EI services are significantly impacted over many children since 2016 supported by APD India.

Now, he is going to school and little care and monitoring is required for another few years to strengthen functionally. Ashadeepa spent long term special care on this particular boy to become sustain by his disability providing various mobilities and supported by government schemes for further facilities like Niramaya health insurance, scholarship facility from government.

BROADENING HORIZONS

Mr. Kumar Narayan is an 18 years old champ from Budni, a small village in Bagalkot district, Karnataka. He is a person with Muscular Dystrophy, a rare condition that causes progressive weakness by degenerating the muscles. he is a child of single parent who is into daily wage employment. Kumar managed to complete SSLC but was unable to pursue further due to his disability. This limited him to the four walls of his home where his passion for painting also remained. While everything seemed hopeless with such a severe and progressive condition Ashadeepa came across him. Ashadeepa invites him enrolled Margadarshi workshop and got him enrolled for an EDP training through the GarvSe Center.

Kumar successfully completed the 10 day training which inspired him to start up his own business. Ashadeepa GSC provided him financial support to start up own business of a painting center at his hometown where he provides different type of painting services including vehicle beautification. To broaden his scope of business, he also started to make stickers and clay models. With all the support system, hard work and creativity, Kumar is now able to make up to Rs. 7500/- per month. **He conveyed thanks to EnAble India, Ashadeepa & RSETI Bagalkot**
